EDUCATION

B.E Computer Science and Engineering
Chennai Institute Of Technology

Nov 2022 – May 2026
CGPA: 8.5

INETRNSHIP AND EXPERIENCE

Full stack-Developer - GetMax Healthcare Pvt Ltd.

Nov 2023 – Dec 2023

- Worked as a Frontend Developer Intern, build company's official website with ReactJS under a collaborative tech team.
- Designed and developed a responsive, modern UI using Figma prototypes and React component for navigation.
- Integrated Firebase for real-time database updates and data storage, enhancing site performance and user interactivity.

Full stack-Developer - Altruistry

Jun 2024 –Jul 2024

- Responsible for styling and ensuring responsive UI across devices, maintaining a layout and user experience.
- Conducted functionality testing of software components and verified stable features before pushing code to Git.
- Gained hands-on experience with Git for version control, enhancing collaboration and code management practices.

PROJECTS

Vanoli | *Flutter, Firebase, just_audio*

- Built a cross-platform app for music, podcasts, and radio with Firebase authentication and Firestore for real-time data.
- Added background playback, offline downloads, sleep timer, and favorites using just_audio, audio_service, and Provider.
- Designed a scalable app structure with reusable widgets and planned AI-powered recommendations and analytics.

Web Application for Virtual Blood Bank | *React, Node.js, Express.js, MongoDB*

- Built a web application with multi-role functionality, dynamic login/registration forms, and secure authentication
- Used Redux Toolkit for state management, including actions, reducers, loading states, and API request handling
- Designed a scalable architecture with reusable UI and future plans for inventory management and advanced features.

Real Estate Marketplace Web App | *React, Node.js, MongoDB, Firebase, Redux*

- Built a full-stack real estate platform with user auth, property listing CRUD, and Firebase Storage for image uploads.
- Implemented advanced search with filters, pagination, and Swiper-based sliders; managed state using Redux Toolkit.
- Deployed the app on Render with Express.js APIs, MongoDB integration via Mongoose, and frontend using Tailwind CSS.

COMPETITIVE PROGRAMMING

Leetcode Max rating 1351, Solved 400+ problems, Attended 80+ contests, achieved global rank of 254 in contest 438.

Codechef Max rating 1158, 1 star level, Attended 60+ contests, achieved global rank of 8283 in starters contest 154.

TECHNOLOGIES AND SKILLS

Programming Languages and Scripting: C,C++,Python, SQL, HTML, CSS, JavaScript

Technologies: React.JS, Node.JS, Express.JS, Flutter, Django, TailwindCSS, Material UI,Selenium,pytest

Machine Learning and Data Science Libraries: TensorFlow, Scikit-learn, OpenCV, NumPy, Pandas

Tools: Figma, Git, Cisco Packet Tracer, PyCharm, Android Studio, pgAdmin, PowerBI,Postman

CERTIFICATIONS

- Meta Front-End Developer (Coursera)

- Cisco CCNA Networking Essentials Course (CISCO)

- Cisco Cybersecurity Essentials Course (CISCO)

- Introduction to IOT (NPTEL Exam - IIT Madras)

- Introduction to MongoDB (MongoDB)

- Android Developer Virtual Internship Course (Eduskills)

VOLUNTEERING

National Cadet Corps: Serving as **Company Sergeant Major** of my College NCC Contigent and leading 49 NCC cadets of my college.

Hackez (Department Symposium): Served as Tech Event Organizer, managing event planning, logistics, and execution for technical competitions and sessions.

Takshashila (College Techno-Cultural Fest): Volunteered as Workshop Organizer, coordinating with speakers and participants to ensure smooth workshop delivery.
